FROM THE PRINCIPAL'S DESK

The World today is changing in such an accelerated rate and we as Educators need to pause and reflect on the entire education system.

"Technology is just a tool. As the children get to work together and motivate them, the Teacher is the most important" -Bill Gates.

Our values should determine our priorities and they are probably the measures we use to tell if our life is turning out the way we want it to. School years are the stepping stones for the development of students good habits and character building towards excellence. Each issue of our newsletter is a milestone that marks our growth, unfolds our imagination and gives life to our thoughts and aspirations.
